

Our practice is proud of the dentistry that we provide for you and your family. Our goal is to not just correct any dental problems you may have, but to show you how to prevent dental disease in the future to save you time and unnecessary expense. The long term success of the dental treatment we provide for you depends on several factors. Your home care of your teeth and gums, your diet, regular professional exams, cleanings and fluoride treatments all have an impact on the health of your teeth and gums. The products we recommend that you use and the frequency of professional cleaning and check-up visits depends on your individual condition. Those visits may be every 2, 3, 4 or even 6 months apart depending on your oral health. With that in mind we offer the following limited dental warranty.

DENTAL SEALANTS

Sealants are plastic coatings placed on the chewing surfaces of the teeth to prevent decay in the pits and grooves of the teeth. These are the most common areas to get cavities. Floss and the use of fluoride will help prevent decay between the teeth. We will repair or replace sealants for a period of 3 years after placement.

You must keep the prescribed regular cleaning and check-up appointments (minimum every 6 months) or this warranty is null and void.

COMPOSITE FILLINGS

If a composite restoration is the recommended treatment of choice, we will replace or repair it in the event of failure for a period of 3 years.

You must keep the prescribed regular cleaning and check-up appointments (minimum every 6 months) or this warranty is null and void.

ROOT CANALS

Root canal treatment is about 95% successful. They do occasionally fail. If you lose your tooth within 3 years, we will refund the root canal fee, or apply it as a credit towards a replacement tooth.

You must keep the prescribed regular cleaning and check-up appointments (minimum every 6 months) or this warranty is null and void.

CROWNS, BRIDGES, AND PORCELAIN VENEERS

We will warranty these most comprehensive procedures for a full 5 years. We will replace or repair them at no charge during this five year period if they break, are lost, or decay with normal use (This does not include accidents that could also break normal healthy teeth).

You must keep the prescribed regular cleaning and check-up appointments (minimum every 6 months) or this warranty is null and void.

DENTURES AND PARTIAL DENTURES

We will warranty dentures and partials for a period of 3 years if a tooth chips or breaks, or a flange breaks under normal use. This warranty does not cover rebases or accidents such as dropping your denture. Full upper and lower denture patients must be seen once every 12 months.

Patients with some of their own natural teeth must be seen at the prescribed cleaning and check-up appointments (minimum every 6 months) or this warranty is null and void.

NOTE: As you can see, we are confident of the durability of our treatment as prescribed for you. The primary key to your long term success is spending a few minutes a day on your home care: brushing, flossing, using fluoride and prescribed products. The second key to success is regular professional examinations, cleanings, X-ray films and fluoride treatments (2, 3, 4, & 6 month intervals depending on your condition). This warranty does not cover accidents that cause damage to the teeth or dental prosthesis. **FAILURE TO HAVE THESE REGULAR VISITS WITH OUR OFFICE VOIDS ALL WARRANTIES.** Help us to help you maintain your teeth for a lifetime.
